**BASIC
WHOLESALE**

About Your Robin-Seed Company...

This business has been built on the firm foundation of a genuine interest in the success of our customers.

We'd like you to think of us as capable friends - partners - whose duty it is to give you the benefit of our experience—and to supply you with seeds of so fine a quality that they will please your customers and thence assure you of a profitable business.

To accomplish this we have long since established the following departments and sales policy:

RESEARCH: Every ROBIN-SEED crop is planted with **pedigreed** parent stock developed and maintained by our Research Department, to the highest possible degree of market-adaptability.

PRODUCTION: Scientific technique insures full yield, high germination and well-filled seeds. We produce all the varieties listed.

PROCESSING: Our Colorado and California plants are outfitted with up-to-date equipment. Through each operation our seeds receive the expert handling so necessary to give them a fine-polished, clean appearance.

EQUIPMENT: In our machine shop we construct labor-saving equipment of our own design. Refinements we have invented have helped to reduce the cost of **ROBIN-SEED** development. This saving we pass on to you.

OPTIONS:

1. We specialize in the reproduction of our customers' special strains. The extra charge is very small.
2. We will treat your seed with fungicidal material—at cost.
3. Unit packaging in 1-lb. bags (or larger) is available at cost. We can supply ROBIN-SEED four-color bags bearing your name and address. Or, if you prefer, your bags.

SALES POLICY: Under no circumstances do we intentionally solicit your customers. NOR do we ever sell shippers, produce men, market gardeners, farmers or home gardeners.

If you will visualize a capable friend working with you—that's mostly what it's like—and that is the way we serve our customers.

LAWRENCE ROBINSON & SONS

62,07 IMPORTANT

*EACH VARIETY must be **individually** priced according to its quantity. FURTHER DISCOUNTS: From the 100 pound price, deduct 5c for **each** variety exceeding 250 pounds. For **each** variety where poundage is less than 25, add 1c per pound; less than 10 lbs., add 3c per pound.

SPECIAL INSTRUCTIONS:

WHOLESALE
ONLY!

YOUR ROBIN-SEED PRODUCTION SCHEDULE

FOR YOUR GUIDANCE, this is a "time-table" of ROBIN-SEED productions. It covers the complete growing season for ANNUALS. For BIENNIALS, however, only the period following root transplanting, is covered. (Root beds are seeded approximately 6 months in advance of transplanting.)

ANNUALS	Seed Planted	Stand Report	Market Stage (best inspection time)	1st Forecast	2nd Forecast	Harvest
Cantaloupe	May-June	July	Aug.-Sept.	Aug.	Sept.	Sept.-Oct.
Cucumber	May-June	July	Aug.-Sept.	Aug.	Sept.	Oct.-Nov.
Lettuce	Jan.-Feb.	April	May-June	July	Aug.	Aug.
Pumpkin & Winter Squash	May-June	July	Sept.	Aug.	Sept.	Nov.
Summer Squash & Gourds	May-June-July 10	July	July-Aug.	Aug.	Sept.	Oct.-Nov.
Watermelon	May-June-July 10	July	Aug.-Sept.	Aug.	Sept.	Sept.-Oct.
BIENNIALS	Roots Transplant'd	Stand Report	1st Forecast	2nd Forecast	Harvest	
Beet	Jan.-Feb.	April	June	July	Aug.	
Carrot	Jan.-Feb.	April	June	July	Aug.-Sept.	

Engineered AS A DELIBERATE MASTERPIECE

TODAY, ENGINEERING is just as much a problem of the Vegetable Breeder, as it is of the manufacturer.

PROBLEMS OF PRODUCTION... Drouth, disease, soil conditions, sectional weather, insects... all constitute hazards of vegetable growing.

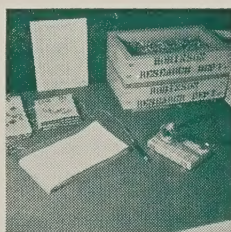

PROBLEMS OF SHIPPING... Size, shape, weight, ability to hold a "fresh from the field" look for thousands of miles, structural strength, skin gloss... are all mechanical factors involving the popularity of each variety.

AND THEN, DON'T OVERLOOK THE HOUSEWIFE, for after all, she is the ultimate judge. And things like food value, ease of preparation, eating, taste, texture, digestion, all dictate to her, the foods on her daily shopping list.

ALL OF THESE, and many others, constitute the "check list" on the Robin-Seed Plant Breeders drawing board.

IT'S A JOB OF ENGINEERING, a job of building into a vegetable the ability to perform.

AND PERFORMANCE, CONSISTENTLY, is what builds sales for you and your trade. JUST seeds, cannot do it. It takes ENGINEERING... PLANT RESEARCH.

ENGINEERING to produce a real **PROFIT** for you. *That's ENGINEERING that counts.*

SEED CONTRACT

WE, LAWRENCE ROBINSON & SONS, HEREBY agree to undertake to grow the within named quantities and varieties of Seed

for

of

under conditions and prices annexed and will deliver same on board cars our option, **Rocky Ford, Colo., or Modesto, Calif.,** as early in the season as seed can be well cured and put in merchantable condition. Seed to be true to name, of good sample, purity and vitality.

TERMS—To well rated firms 1% 10 days, 30 days net with Trade Acceptance, containers extra. Others Draft with B/L.

It is mutually agreed that in case of a shortage of any of the within named quantities that a full pro rata division shall be considered a satisfactory delivery on the order.

LAWRENCE ROBINSON & SONS give no warranty expressed or implied as to the productiveness of any seeds they sell, and will not be in any way responsible for the crop. Their liability in all instances is limited to the purchase price of the seed.

LAWRENCE ROBINSON & SONS

PER

Modesto, Calif.,, 1949

WE HEREBY AGREE to accept the within named Seeds and pay for same upon terms and conditions above specified.

ATTENTION: Margaret C. Schindler

We give no warranty, express or implied, as to the productiveness of any seeds or bulbs we sell and we will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seed.

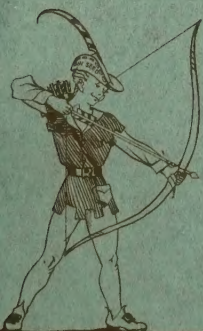

Thank you, gentlemen, for your letter of September 28th.

With this letter, I will enclose several pieces of descriptive literature, as issued by our company. We do not have a general catalog in print at the present time, but shortly we will be getting to work on this -- our supply was exhausted during the war years, and we haven't put a new one into print yet. We will see to it that you will receive one when it comes up for re-issue.

In the meantime, I am going to place your library on our mailing list to regularly receive our annual bulletins put out by our Research and Production departments. Their titles: VARIETAL DATA, TECHNICAL DATA, CROP REPORT, PICKED UP IN THE FIELD.

Kindest regards,

Larry Robinson, jr/c
